Semester : Fifth

Course Title : ENTREPRENEURSHIP DEVELOPMENT AND STARTUPS

Course Code : 315002

#### I. RATIONALE

Entrepreneurship and Startups are introduced in this curriculum to develop the entrepreneurial traits among the students before they enter into professional life. Exposing and interacting with entrepreneurship and startup eco-system, students will develop entrepreneurial mind set. The innovative thinking with risk-taking ability along with other traits will be inculcated in the students through micro-projects and training. This exposure will be instrumental in orienting the students in transforming them to become job generators after completion of Diploma in Engineering.

#### II. INDUSTRY / EMPLOYER EXPECTED OUTCOME

Develop project proposals for launching small scale enterprises and starts up.

# III. COURSE LEVEL LEARNING OUTCOMES (COS)

Students will be able to achieve & demonstrate the following COs on completion of course based learning

- CO1 Identify one's entrepreneurial traits.
- CO2 Use information collected from stakeholder for establishing/setting up/founding starts up
- CO3 Use support systems available for Starts up
- CO4 Prepare project plans to manage the enterprise effectively

#### IV. TEACHING-LEARNING & ASSESSMENT SCHEME

#### ENTREPRENEURSHIP DEVELOPMENT AND STARTUPS

#### Total IKS Hrs for Sem. : Hrs

Abbreviations: CL- ClassRoom Learning, TL- Tutorial Learning, LL-Laboratory Learning, SLH-Self Learning Hours, NLH-Notional Learning Hours, FA - Formative Assessment, SA -Summative assessment, IKS - Indian Knowledge System, SLA - Self Learning Assessment

Legends: @ Internal Assessment, # External Assessment, \*# On Line Examination , @\$ Internal Online Examination Note :

- 1. FA-TH represents average of two class tests of 30 marks each conducted during the semester.
- 2. If candidate is not securing minimum passing marks in FA-PR of any course then the candidate shall be declared as "Detained" in that semester.
- 3. If candidate is not securing minimum passing marks in SLA of any course then the candidate shall be declared as fail and will have to repeat and resubmit SLA work.
- 4. Notional Learning hours for the semester are (CL+LL+TL+SL)hrs.\* 10 Weeks
- 5. 1 credit is equivalent to 30 Notional hrs.
- 6. \* Self learning hours shall not be reflected in the Time Table.
- 7. \* Self learning includes micro project / assignment / other activities.

#### V. THEORY LEARNING OUTCOMES AND ALIGNED COURSE CONTENT

| Sr.No | Theory Learning Outcomes (TLO's)aligned to CO's.   | Learning content mapped with Theory Learning Outcomes (TLO's) and CO's.  | Suggested<br>Learning<br>Pedagogies.          |
|-------|--|--|---|
| 1     | TLO 1.1 Compare advantages and disadvantages of Entrepreneurship TLO 1.2 Identify entrepreneurial traits through self-analysis TLO 1.3 Compare risk associated with different type of enterprise   | Unit - I Introduction to Entrepreneurship Development  1.1 Entrepreneurship as a career – charms, advantages, disadvantages, scope- local and global  1.2 Traits of successful entrepreneur: consistency, creativity, initiative, independent decision making, assertiveness, persuasion, persistence, information seeking, handling business communication, commitment to work contract, calculated risk taking, learning from failure  1.3 Types of enterprises and their features: manufacturing, service and trading   | Presentations<br>Lecture Using<br>Chalk-Board |
| 2     | TLO 2.1 Explain Important factors essential for selection of product/service and selection of process TLO 2.2 Suggest suitable place for setting up the specified enterprise on the basis of given data/circumstances with justification. TLO 2.3 Suggest steps for the selection process of an enterprise for the specified product or service with justification. TLO 2.4 Plan a market study /survey for the specified enterprise | Unit - II Startup Selection Process 2.1 Product/Service selection: Process, core competence, product/service life cycle, new product/ service development process, mortality curve, creativity and innovation in product/ service modification / development 2.2 Process selection: Technology life cycle, forms and cost of transformation, factors affecting process selection, location for an industry, material handling. 2.3 Market study procedures: questionnaire design, sampling, market survey, data analysis 2.4 Getting information from concerned stakeholders such as Maharashtra Centre for Entrepreneurship Development[MCED], National Institute for Micro, Small and Medium Enterprises [NI-MSME], Prime Minister Employment Generation Program [PMEGP], Directorate of Industries[DI], Khadi Village Instries Commission[KVIC] | Presentations<br>Lecture Using<br>Chalk-Board |

# ENTREPRENEURSHIP DEVELOPMENT AND STARTUPS

| ENTR  | ENTREPRENEURSHIP DEVELOPMENT AND STARTUPS Course   |  |   |  |  |  |  |  |  |  |
|-------|--|--|---|--|--|--|--|--|--|--|
| Sr.No | Theory Learning Outcomes (TLO's)aligned to CO's.   | Learning content mapped with Theory Learning Outcomes (TLO's) and CO's.  | Suggested<br>Learning<br>Pedagogies.          |  |  |  |  |  |  |  |
| 3     | TLO 3.1 Explain categorization of MSME on the basis of turnover and investment TLO 3.2 Describe support system provided by central and state government agencies TLO 3.3 State various schemes of government agencies for promotion of entrepreneurship TLO 3.4 Describe help provided by the non governmental agencies for the specified product/service TLO 3.5 Compute breakeven point, ROI and ROS for the specified business enterprise, stating the assumptions made   | Unit - III Support System for Startup 3.1 Categorization of MSME, ancillary industries 3.2 Support systems- government agencies: MCED, NI MSME, PMEGP,DI, KVIC 3.3 Support agencies for entrepreneurship guidance, training, registration, technical consultation, technology transfer and quality control, marketing and finance. 3.4 Breakeven point, return on investment (ROI) and return on sales (ROS).  | Presentations<br>Lecture Using<br>Chalk-Board |  |  |  |  |  |  |  |
| 4     | TLO 4.1 Explain key elements for the given business plan with respect to their purpose/size TLO 4.2 Justify USP of the given product/ service from marketing point of view. TLO 4.3 Formulate business policy for the given product/service. TLO 4.4 Choose relevant negotiation techniques for the given product/ service with justification TLO 4.5 Identify risks that you may encounter for the given type of business/enterprise with justification. TLO 4.6 Describe role of the incubation centre and accelerators for the given product/service. | Unit - IV Managing Enterprise 4.1 Techno commercial Feasibility study, feasibility report preparation and evaluation criteria 4.2 Ownership, Capital, Budgeting, Matching entrepreneur with the project 4.3 Unique Selling Proposition [U.S.P.]: Identification, developing a marketing plan. 4.4 Preparing strategies of handling business: policy making, negotiation and bargaining techniques 4.5 Risk Management: Planning for calculated risk taking, initiation with low cost projects, integrated futuristic planning, definition of startup cycle, ecosystem, angel investors, venture capitalist 4.6 Incubation centers and accelerators: Role and procedure | Presentations<br>Lecture Using<br>Chalk-Board |  |  |  |  |  |  |  |

# VI. LABORATORY LEARNING OUTCOME AND ALIGNED PRACTICAL / TUTORIAL EXPERIENCES.

| LLO 7.1 Interpret the use of Technology<br>Life Cycle   | 7        | A Case study on 'Technology life cycle' of any successful entrepreneur.                          | 2              | CO3                      |
| LLO 8.1 Use information related to support of startups from Government and non-government agencies' LLO 8.2 Prepare report for setting up startup | 8        | *Preparation of report on 'Information for<br>setting up new startup' from<br>MCED/MSME/KVIC etc | 2              | CO3<br>CO4               |
| LLO 9.1 Compute ROI of successful enterprise.   | 9        | Case study on 'Return on Investment (ROI)' of any successful startup                             | 2              | СОЗ                      |
| LLO 10.1 Calculate of ROS of any successful enterprise  | 10       | Case study on 'Return on sales (ROS)' of any successful startup                                  | 2              | CO3                      |
| LLO 11.1 Calculate Brake even point of any enterprise   | 11       | Preparation of report on 'Brake even point calculation' of any enterprise.                       | 2              | CO3<br>CO4               |
| LLO 12.1 Prepare feasibility report of given business   | 12       | *Preparation of report on 'feasibility of any<br>Techno-commercial business"                     | 2              | CO4                      |
| LLO 13.1 Plan a USP of any enterprise.  | 13       | *A case study based on 'Unique selling<br>Proposition (USP) of any successful<br>enterprise      | 2              | CO4                      |
| LLO 14.1 Prepare a project report using facilities of Atal Incubation center.   | 14       | *Prepare project report for starting new<br>startup using 'Atal incubation center (AIC)          | 2              | CO1<br>CO2<br>CO3<br>CO4 |

#### Note: Out of above suggestive LLOs -

- '\*' Marked Practicals (LLOs) Are mandatory.
- Minimum 80% of above list of lab experiment are to be performed.
- Judicial mix of LLOs are to be performed to achieve desired outcomes.

# VII. SUGGESTED MICRO PROJECT / ASSIGNMENT/ ACTIVITIES FOR SPECIFIC LEARNING / SKILLS DEVELOPMENT (SELF LEARNING)

# Micro project

- Prepare a 'Pitch- desk' for your start up
- Prepare a business plan for a. Market research b. Advertisement agency c. Placement Agency d. Repair and Maintenance agency e. Tour and Travel agency
- Prepare a 'Social entrepreneurship business plan, plan for CSR funding.
- Prepare a 'Women entrepreneurship business plan 'Choose relevant government scheme for the product/service
- Prepare a business plan for identified projects by using entrepreneurial eco system for the same (Schemes, incentives, incubators etc.)

#### ENTREPRENEURSHIP DEVELOPMENT AND STARTUPS

#### Note:

- Above is just a suggestive list of microprojects and assignments; faculty must prepare their own bank of microprojects, assignments, and activities in a similar way.
- The faculty must allocate judicial mix of tasks, considering the weaknesses and / strengths of the student in acquiring the desired skills.
- If a microproject is assigned, it is expected to be completed as a group activity.
- SLA marks shall be awarded as per the continuous assessment record.
- For courses with no SLA component the list of suggestive microprojects / assignments/ activities are optional, faculty may encourage students to perform these tasks for enhanced learning experiences.
- If the course does not have associated SLA component, above suggestive listings is applicable to Tutorials and maybe considered for FA-PR evaluations.

#### VIII. LABORATORY EQUIPMENT / INSTRUMENTS / TOOLS / SOFTWARE REQUIRED

| Sr.No | Equipment Name with Broad Specifications     | Relevant LLO Number |
|-------|--|---------------------|
| 1     | Computers with internet and printer facility | All                 |

# IX. SUGGESTED WEIGHTAGE TO LEARNING EFFORTS & ASSESSMENT PURPOSE (Specification Table)

Semester : Fifth

Course Title : SEMINAR AND PROJECT INITIATION COURSE

Course Code : 315003

#### I. RATIONALE

Most of the diploma graduates lack the confidence and fluency while presenting papers or interacting verbally and expressing them with a large gathering. Seminar presentation boosts the confidence of the students and prepares them precisely for facing the aud interviews and group discussions. The course on seminar is to enhance student's ability in the art of academic writing and to presen also helps broaden the minds of the participants. Through this course on Seminar, students will develop new ideas and perspectives subject /themes of emerging technologies and services of their area of studies. Project initiation enhances project planning skill establishes measurable objectives and interaction skills.

#### II. INDUSTRY / EMPLOYER EXPECTED OUTCOME

The aim of this course is to help the student to attain the following industry identified competency through various teaching learning experiences: Present a seminar on the selected theme/area of study effectively and confidently to the specific audience and stakeholde Plan innovative solutions independently or collaboratively to the identified problem statement.

#### III. COURSE LEVEL LEARNING OUTCOMES (COS)

Students will be able to achieve & demonstrate the following COs on completion of course based learning

- CO1 Identify topics of seminar presenting to the large gathering at the institute/conference.
- CO2 Collect relevant and updated research-based data and information to prepare a paper of seminar presentation.
- CO3 Apply presentation skills.
- CO4 Create conducive environment for learning and discussion through seminar presentation.
- CO5 Identify a problem statement and establish the action plan for the successful completion of the project.

### IV. TEACHING-LEARNING & ASSESSMENT SCHEME

|                |   |                       |     |       | Lear | ning                      | Schen | ie  |         |          |           |           | As  | sessr | nent (                      | Sche | me  |     |                |     |

#### V. General guidelines for SEMINAR and Project Initiation

- The seminar must be related to emerging trends in engineering / technology programme or may be inter/ multi-disciplinary, base industry expected outcomes of the programme.
- The individual students have different aptitudes and strengths. Therefore, SEMINAR should match the strengths of students. For purpose, students shall be asked to select the TITLE (Theme)of SEMINAR they would like to prepare and present.
- Seminar titles are to be finalized in consultation with the faculty mentor.
- Seminar must involve logic development of applications of various technologies/ processes applicable in industry.
- Seminar must be assigned to the single student. However, support of other students may be sorted while presenting the seminar
- Students are required to prepare using relevant software tools, write ups for presentation
- Students shall submit One Hard copy and one Soft copy each of the presentation and may be encouraged to keep a recorded copy presentation made during the seminar.

Course Code: 31

- Batch of 3-4 students shall be formed for project initiation.
- Projects give a platform for the students to showcase an attitude of inquiry to identify the problem statement related to the progra Students shall Identify the information suggesting the cause of the problem and possible solutions
- Students shall study and assess the feasibility of different solutions and the financial implications.
- Students should collect relevant data from different sources (books/internet/market/suppliers/experts through surveys/interviews)
- Students shall prepare required drawings/ designs and detailed plan for the successful execution of the work.
- Students may visit the organisation pertaining to the problem statement as part of initial study.

#### VI. Guidelines for Seminar preparation and presentation:

Once the title/topic of a seminar has been finalized and allotted to the student, the teacher's role is important as guide, mentor an motivator, to promote learning and sustain the interest of the students.

Following should be kept in mind while preparing and presenting the seminar:

- Seminar Orientation cum -briefing: the seminar topics/themes should be innovative, novel and relevant to the curriculum of t programme, and also aligned to the expectations of industry.
- Seminar Literature survey: Information search and data collection: the information and data should be authentic, realistic and r to the curriculum of the programme.
- Seminar Preparation, and presentation: The seminar shall be present with suitable software tools and supporting handout/note presentation of seminar should not be more than 20 minutes including Q-A session.

The following guidelines may be followed for Project Initiation

- Establishing project scope: Determine the boundaries of the project.
- Defining project objectives: Set clear and measurable objectives that align with the project's purpose.
- Stakeholder identification and analysis: Perform an exercise in identifying all stakeholders involved in the project and analyzi needs and expectations.
- Team Formation: Carefully build a team with the necessary skills and expertise to execute the project successfully.
- **Documentation.** Create a project planner showcasing the action plan, define the project's scope, outline the project definition, at design of the project. The document has to be made available to all stakeholders

#### VII. Criteria of Assessment /Evaluation of Seminar

#### A. Formative Assessment (FA) criteria

The assessment of the students in the fifth semester Progressive Assessment (PA) for 50 marks is to be done based on following

#### A. Suggestive RUBRICS for assessment

| Sr. | No. | Criteria                                  | Mar |
|-----|-----|---|-----|
|     | 1   | Selection Topic/Theme of seminar          | 05  |
|     | 2   | Literature review and data presentation   | 05  |
|     | 3   | Quality of Preparation and innovativeness | 05  |
|     | 4   | Q-A handling                              | 05  |
|     | 5   | Time Management                           | 05  |
|     | 6   | Seminar Presentation report               | 10  |

#### Rubrics for assessment of Project Initiation

| Sr. No. | Criteria   | M |
|---------|--|---|
| 1       | Selection of Theme of Problem Statement and its innovativeness |   |
| 2       | Stages of development of Action plan                           |   |
| 3       | Prototyping  |   |

The total marks as per above out of 50, shall be converted in proportion of 25 marks.

#### B. Summative Assessment criteria/

The summative assessment of the students in the fifth semester End-Semester-Examination (ESE) for 50 marks is to be done based on following criteria. This assessment shall be done by the Faculty.

Suggestive RUBRICS may be developed by the faculty

| ИI | NAR AND | PROJECT INITIATION COURSE  | Course Code : 31 |
|----|---------|--|------------------|
|    | Sr. No. | Criteria   | Mark             |
|    | 1       | Quality of information/Knowledge presented in SEMINAR              |                  |
|    | 2       | Creativity, Innovation in SEMINAR presentation                     |                  |
|    | 3       | Response to the question during seminar presentation               |                  |
|    | 4       | Establishment of Innovative Problem Statement and its presentation |                  |
|    | 5       | Objectives of the project and action plan                          |                  |

The total obtained marks shall be converted in proportion of 25 marks.

# VIII. Suggestive CO-PO Mapping

|                             | Programme Outcomes (POs)                       |         |         |                        |               |                         |                         |       |  |  |  |  |  |  |
|-----------------------------|--|---------|---------|------------------------|---------------|-------------------------|-------------------------|-------|--|--|--|--|--|--|
| Course<br>Outcomes<br>(COs) | PO-1  Basic and Discipline  Specific Knowledge | Problem | Design/ | PO-4 Engineering Tools | Practices for | PO-6 Project Management | PO-7 Life Long Learning | PSO-1 |  |  |  |  |  |  |
| CO-1                        | 3  | 1       | 0       | -                      | 2             | 2                       | 3                       |       |  |  |  |  |  |  |
| CO-2                        | 2  |         | 2       |                        | 2             | 1                       | 3                       |       |  |  |  |  |  |  |
| CO-3                        | 3  | 1       | 1       | 2                      | 1             | 2                       | 3                       |       |  |  |  |  |  |  |
| CO-4                        | 2  | 0       | 0       | 2                      | 1             | 2                       | 3                       |       |  |  |  |  |  |  |
| CO-5                        | 3  | 3       | 3       | 2                      | 2             | 3                       | 3                       |       |  |  |  |  |  |  |

#### VIII. Typographical instructions/guidelines for seminar preparation & presentation

- The seminar PPT shall be computer typed (English- British)
- Text Font -Times New Roman (TNR), Size-12 point
- Subsection heading TNR- 12 point bold normal
- Section heading TNR- 12 capital bold
- Chapter Name / Topic Name TNR- 14 Capital
- All text should be justified. (Settings in the Paragraph)
- o Different colors text/diagrams /tables may used
- o The name of the candidate, diploma (department), year of submission, name of the institute shall be printed on the first slide PPT.

#### **IX.Seminar and Project Initiation Report**

On completion and presentation of Seminar, every student will submit a brief report which should contain the following:

- Cover Page (as per annexure 1)
- Title page (as per annexure 2)
- Certificate by the Guide (as per annexure 3)
- Acknowledgment (The candidate may thank all those who helped in the execution of the project).
- Abstract of Paper presented in the seminar (It should be in one page and include the purpose of the seminar & methodology .)
- o Index
- List of Figures
- Introduction
- Literature Review
- o Information/Chapters related to Seminar topic
- Advantages and Disadvantages
- Conclusion
- o Project Initiation: a) Description of problem statement. b) Scope and objectives. c) State holder d) Platform/ Equipment/ Re identification.
- Bibliography
- o References

NOTE: Seminar report must contain only relevant – technology or platform or OS or tools used and shall not exceed 25-30 page:

Course Code: 31

Details of Softcopy to be submitted:

The soft copy of seminar presentation is required to be provided on the back cover of the seminar report in clear packet, which sl include the following folders and contents:

- 1. Presentation (should include a PPT about project in not more than 15 slides)
- 2.Documentation (should include a word file of the project report)

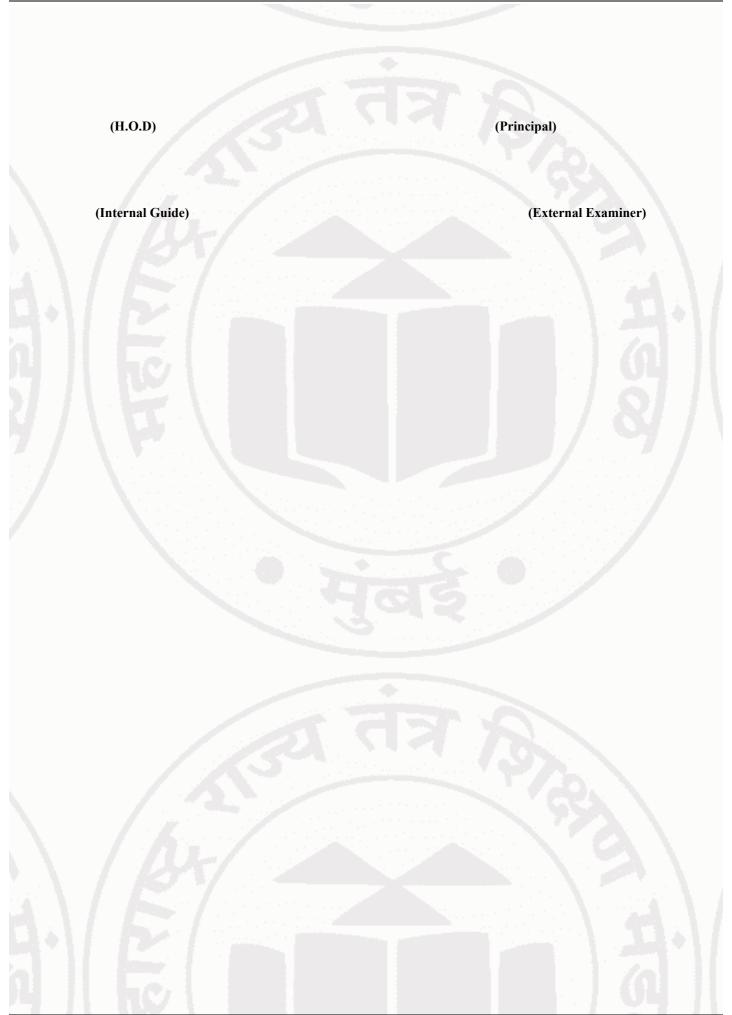

NOTE: Soft copy must be checked for any harmful viruses before submission.

# X. Sample Formats

- 1) Cover Page Annexure-I
- 2) Index Annexure-II
- 3) Assessment Annexure-III

Course Title : OPERATING SYSTEM

Course Code : 315319

#### I. RATIONALE

An Operating System is to manage a Computer Hardware and software resources efficiently and provide user friendly environment. An Operating System is a System Program that controls the execution of application program and acts as an interface between applications and the computer hardware. It also place a curtail role in maintaining system security, protecting data and ensuring that processes do not interfere with one another. This course enables to learn internal functioning of Operating System and will help in identifying appropriate Operating System for given Application/Task.

#### II. INDUSTRY/EMPLOYER EXPECTED OUTCOME

Interpret features of Operating System.

### III. COURSE LEVEL LEARNING OUTCOMES (COS)

Students will be able to achieve & demonstrate the following COs on completion of course based learning

- CO1 Explain the services and components of an Operating System.
- CO2 Describe the different aspects of Process Management in an Operating System.
- CO3 Implement various CPU Scheduling algorithms and evaluate their effectiveness.
- CO4 Analyze the Memory Management techniques used by an Operating System.
- CO5 Apply techniques for effective File Management in an Operating System.

#### IV. TEACHING-LEARNING & ASSESSMENT SCHEME

#### Note:

- 1. FA-TH represents average of two class tests of 30 marks each conducted during the semester.
- 2. If candidate is not securing minimum passing marks in FA-PR of any course then the candidate shall be declared as "Detained" in that semester.
- 3. If candidate is not securing minimum passing marks in SLA of any course then the candidate shall be declared as fail and will have to repeat and resubmit SLA work.
- 4. Notional Learning hours for the semester are (CL+LL+TL+SL)hrs.\* 10 Weeks
- 5. 1 credit is equivalent to 30 Notional hrs.
- 6. \* Self learning hours shall not be reflected in the Time Table.
- 7. \* Self learning includes micro project / assignment / other activities.

#### V. THEORY LEARNING OUTCOMES AND ALIGNED COURSE CONTENT

| Sr.No | Theory Learning Outcomes (TLO's)aligned to CO's.  | Learning content mapped with Theory Learning<br>Outcomes (TLO's) and CO's.   | Suggested<br>Learning<br>Pedagogies.          |
|-------|---|--|---|
| 1     | TLO 1.1 Describe functions of an Operating System. TLO 1.2 Explain different services of Operating System. TLO 1.3 Explain use of system call of Operating System. TLO 1.4 Explain activities of Operating System in concern with their components.   | Unit - I Operating System services and components  1.1 Operating System: concept, functions 1.2 Different types of Operating System: Batch Operating System, Multi-programmed, Time Shared Operating System, Multi-processor System, Distributed System, Real Time System, Mobile OS (Android OS) 1.3 Command line based Operating System: DOS, UNIX GUI based Operating System: WINDOWS, LINUX, MaC OS 1.4 Different Services of Operating System, System Calls: Concept, types of system calls 1.5 Operating System Components: Process Management, Main Memory Management, File Management, IO Management, Secondary Storage Management | Presentations<br>Lecture Using<br>Chalk-Board |
| 2     | TLO 2.1 Explain the different states of a process. TLO 2.2 Describe the functions of different component of process stack in PCB (Process Control Block). TLO 2.3 Explain multiple processes access shared resources without interfering each other. TLO 2.4 Compare Multithreading models. | Unit - II Process Management 2.1 Processes: process state, process control block 2.2 Process Scheduling: scheduling queues, types of schedulers, context switch 2.3 Inter Process Communication: Shared memory system, Message passing system 2.4 Threads: Benefits, User and Kernel level threads, Multithreading Models: One to One, Many to One, Many to Many 2.5 Execute process commands like: top, ps, kill, wait, sleep, exit, nice   | Lecture Using<br>Chalk-Board<br>Presentations |

OPERATING SYSTEM Course Code: 315319

| Sr.No | Theory Learning Outcomes (TLO's)aligned to CO's.   | Learning content mapped with Theory Learning Outcomes (TLO's) and CO's.  | Suggested<br>Learning<br>Pedagogies.                                     |
|-------|--|--|--|
| 3     | TLO 3.1 Justify the need of given scheduling criteria with relevant example. TLO 3.2 Explain with example the procedure of allocating CPU to the given process. TLO 3.3 Calculate turnaround time and average waiting time of the given scheduling algorithm. TLO 3.4 Explain functioning of the given necessary conditions leading to Deadlock. | Unit - III CPU Scheduling 3.1 Scheduling: Basic concept, CPU and I/O burst cycle 3.2 Preemptive and Non-preemptive scheduling, scheduling criteria 3.3 Types of Scheduling algorithms: First Come First Serve(FCFS), Shortest Job First (SJF), Shortest Remaining Time Next (SRTN), Round Robin (RR), Priority Scheduling, Multilevel Queue Scheduling 3.4 Deadlock: System Models, Necessary conditions Leading to Deadlock, Deadlock Handling: Deadlock prevention, Deadlock avoidance- Banker's Algorithm | Presentations<br>Lecture Using<br>Chalk-Board                            |
| 4     | TLO 4.1 Compare fixed and variable memory partitioning. TLO 4.2 Differentiate between Bit map and Linked list technique. TLO 4.3 Explain working of various partitioning algorithm. TLO 4.4 Calculate page fault for given page reference string.  | Unit - IV Memory Management 4.1 Basic Memory Management: Partitioning - Fixed and Variable, Free Space Management Techniques: Bit map, Linked List 4.2 Swapping, Compaction, Fragmentation, Partitioning Algorithms: First fit, Best fit, Worst fit 4.3 Non-contiguous Memory Management Techniques: Paging, Segmentation 4.4 Virtual Memory: Basics, Demand paging, Page Fault 4.5 Page Replacement Algorithm: First In First Out (FIFO), Least Recently Used (LRU), Optimal                                | Lecture Using<br>Chalk-Board<br>Presentations<br>Video<br>Demonstrations |
| 5     | TLO 5.1 Explain structure of the given file system with example.  TLO 5.2 Describe mechanism of file access method.  TLO 5.3 Explain procedure to create access directories and assign the given file access permissions.  | Unit - V File Management 5.1 File Concepts: Attributes, Operations, File types and File system structure 5.2 Accessing Methods: Sequential, Direct 5.3 File Allocation Methods: Contiguous allocation, Linked allocation, Indexed allocation 5.4 Directory Structure: Single level, Two level, Tree structured Directory   | Presentations<br>Lecture Using<br>Chalk-Board                            |

# VI. LABORATORY LEARNING OUTCOME AND ALIGNED PRACTICAL / TUTORIAL EXPERIENCES.

| Practical / Tutorial / Laboratory Learning Outcome (LLO)    | Sr<br>No | Laboratory Experiment / Practical Titles / Tutorial<br>Titles   | Number of hrs. | Relevant<br>COs |
|---|----------|---|----------------|-----------------|
| LLO 1.1 Execute the system call commands.                   | 1        | * System call commands in Linux such as fork(), exec(), getpid, pipe, exit, open, close, stat, uname.   | 2              | CO1             |
| LLO 2.1 Execute process related commands.                   | 2        | * Process related commands in Linux - top, ps, kill, wait, sleep, nice, renice,bg,fg.   | 2              | CO2             |
| LLO 3.1 Execute message passing and shared memory commands. | 3        | * a. Commands for Sending Messages to Logged-in Users -who, cat, wall, write, mesg.  * b. List Processes Attached to a Shared Memory Segment: ipcs. | 2              | CO2             |

Course Code: 315319

# **OPERATING SYSTEM**

| Practical / Tutorial / Laboratory Learning Outcome (LLO)                       | Sr<br>No | Laboratory Experiment / Practical Titles / Tutorial<br>Titles  | Number of hrs. | Relevant<br>COs |
|--|----------|--|----------------|-----------------|
| LLO 4.1 Implement First<br>Come First Serve (FCFS)<br>Scheduling algorithm.    | 4        | * Write a C/Python program to calculate average waiting time and Turnaround Time of n processes with First Come First Serve (FCFS) CPU scheduling algorithm. | 2              | CO3             |
| LLO 5.1 Implement Shortest Job First (SJF) Scheduling algorithm.               | 5        | Write a C/Python program to calculate average waiting time and Turnaround Time of n processes with Shortest Job First (SJF) CPU scheduling algorit hm.       | 2              | СОЗ             |
| LLO 6.1 Implement Priority Scheduling algorithm.                               | 6        | Write a C/Python program to calculate average waiting time and Turnaround Time of n processes with Priority CPU scheduling algorithm.                        | 2              | СОЗ             |
| LLO 7.1 Implement Round<br>Robin (RR) Scheduling<br>algorithm.                 | 7        | Write a C/Python program to calculate average waiting time and Turnaround Time of n processes with Round Robin (RR) CPU scheduling algorithm.                | 2              | CO3             |
| LLO 8.1 Implement<br>Banker's algorithm for<br>deadlock avoidance.             | 8        | Write a C/Python program to implement Banker's Algorithm.  | 2              | CO3             |
| LLO 9.1 Execute memory management commands.                                    | 9        | Basic memory management commands - df, free, vmstat, /proc/meminfo, htop.  | 2              | CO4             |
| LLO 10.1 Implement First In First Out (FIFO) Page Replacement algorithm .      | 10       | * Write a C/Python program on First In First Out (FIFO) Page Replacement algorithm.  | 2              | CO4             |
| LLO 11.1 Implement Least<br>Recently Used (LRU) Page<br>Replacement algorithm. | 11       | Write a C/Python program on Least Recently Used (LRU) Page Replacement algorithm.  | 2              | CO4             |
| LLO 12.1 Implement sequential file allocation method.                          | 12       | * Write a C/Python program on sequential file allocation method.   | 2              | CO5             |

# Note: Out of above suggestive LLOs -

- '\*' Marked Practicals (LLOs) Are mandatory.
- Minimum 80% of above list of lab experiment are to be performed.
- Judicial mix of LLOs are to be performed to achieve desired outcomes.

# VII. SUGGESTED MICRO PROJECT / ASSIGNMENT/ ACTIVITIES FOR SPECIFIC LEARNING / SKILLS DEVELOPMENT (SELF LEARNING)

#### **Assignment**

- Find out the total number of page faults using i) First In First Out ii) Least recently used page replacement ii) Optimal page replacement Page replacement algorithms of memory management, if the page are coming in the order 7 0 1 2 0 3 0 4 2 3 0 3 2 1 2 0 1 7 0 1
- Compare between CLI based Operating System and GUI based Operating System.
- Differentiate between process and thread (any two points). Also discuss the benefits of multithreaded programming.
- Enlist different file allocation methods? Explain contiguous and indexed allocation method in detail.

# Micro project

- Create a report depicting features of different types of operating systems- Batch operating system, Multi programmed, Time shared, Multiprocessor systems, Real time systems, Mobile OS with examples.
- Implement and Compare Memory Allocation Strategies First Fit, Best Fit, Worst Fit

OPERATING SYSTEM Course Code: 315319

• Create a report on different operating system tools used to perform various functions.

# Self learning

• Complete any one course related to the operating system on MOOCS such as NPTEL, Coursera, Infosys Springboard etc.

#### Note:

- Above is just a suggestive list of microprojects and assignments; faculty must prepare their own bank of microprojects, assignments, and activities in a similar way.
- The faculty must allocate judicial mix of tasks, considering the weaknesses and / strengths of the student in acquiring the desired skills.
- If a microproject is assigned, it is expected to be completed as a group activity.
- SLA marks shall be awarded as per the continuous assessment record.
- For courses with no SLA component the list of suggestive microprojects / assignments/ activities are optional, faculty may encourage students to perform these tasks for enhanced learning experiences.
- If the course does not have associated SLA component, above suggestive listings is applicable to Tutorials and maybe considered for FA-PR evaluations.

### VIII. LABORATORY EQUIPMENT / INSTRUMENTS / TOOLS / SOFTWARE REQUIRED

| Sr.No | Equipment Name with Broad Specifications   | Relevant LLO<br>Number |
|-------|--|------------------------|
| 1     | Computer system with basic configuration. Linux or alike operating system such as Ubuntu, CentOS or any other. | All                    |

# IX. SUGGESTED WEIGHTAGE TO LEARNING EFFORTS & ASSESSMENT PURPOSE (Specification Table)

Course Code: 315323

#### **SOFTWARE ENGINEERING**

: Computer Technology/ Computer Engineering/ Computer Science & Engineering/

Programme Name/s Computer Hardware & Maintenance/

Computer Science & Information Technology/ Computer Science

Programme Code : CM/ CO/ CW/ HA/ IH/ SE

Semester : Fifth

Course Title : SOFTWARE ENGINEERING

Course Code : 315323

#### I. RATIONALE

Software Engineering is the foundation for professional processes to be followed for designing, developing, testing and maintaining software involving principles, different techniques, and practices for software development. This course enable students to develop requisite abilities to follow systemic and disciplined approach to software development that aims to create high quality, reliable and maintainable software.

#### II. INDUSTRY / EMPLOYER EXPECTED OUTCOME

Apply software engineering principles to develop software product.

# III. COURSE LEVEL LEARNING OUTCOMES (COS)

Students will be able to achieve & demonstrate the following COs on completion of course based learning

- CO1 Select suitable software development process model
- CO2 Prepare software requirement specification.
- CO3 Construct different Software design models
- CO4 Apply different planning and cost estimation techniques for a software product
- CO5 Apply project management techniques in software development.
- CO6 Use quality assurance principles in software development

#### IV. TEACHING-LEARNING & ASSESSMENT SCHEME

# **Total IKS Hrs for Sem.:** 0 Hrs

Abbreviations: CL- ClassRoom Learning, TL- Tutorial Learning, LL-Laboratory Learning, SLH-Self Learning Hours, NLH-Notional Learning Hours, FA - Formative Assessment, SA -Summative assessment, IKS - Indian Knowledge System, SLA - Self Learning Assessment

Legends: @ Internal Assessment, # External Assessment, \*# On Line Examination , @\$ Internal Online Examination

Note:

- 1. FA-TH represents average of two class tests of 30 marks each conducted during the semester.
- 2. If candidate is not securing minimum passing marks in FA-PR of any course then the candidate shall be declared as "Detained" in that semester.
- 3. If candidate is not securing minimum passing marks in SLA of any course then the candidate shall be declared as fail and will have to repeat and resubmit SLA work.
- 4. Notional Learning hours for the semester are (CL+LL+TL+SL)hrs.\* 10 Weeks
- 5. 1 credit is equivalent to 30 Notional hrs.
- 6. \* Self learning hours shall not be reflected in the Time Table.
- 7. \* Self learning includes micro project / assignment / other activities.

# **SOFTWARE ENGINEERING**

# V. THEORY LEARNING OUTCOMES AND ALIGNED COURSE CONTENT

| Sr.No | Theory Learning Outcomes (TLO's)aligned to CO's.   | Learning content mapped with Theory Learning Outcomes (TLO's) and CO's.  | Suggested<br>Learning<br>Pedagogies.                           |
|-------|--|--|--|
| 1     | TLO 1.1 Select the attributes that match with standards for the given software application. TLO 1.2 Suggest the relevant software solution for the given problem. TLO 1.3 Select the relevant software process model for the given problem. TLO 1.4 Suggest the relevant activities in Agile Development Process.  | Unit - I Software Development Process  1.1 Software characteristics, Types of software.  1.2 The Process: Software Engineering: A Layered approach -Process, Methods and Tools  1.3 Software development framework.  1.4 Software Process Model: Waterfall Model  1.5 Incremental Process Model: RAD Model  1.6 Evolutionary Process Models: Prototyping model, Spiral model  1.7 Agile Process Model: Extreme Programming, Adaptive Software Development (ASD), Scrum, Dynamic System Development Method (DSDM), CRYSTAL. Agile Unified Process (AUP)   | Presentations<br>Lecture Using<br>Chalk-Board                  |
| 2     | TLO 2.1 Apply principles of software engineering for the given problem.  TLO 2.2 Select the relevant requirement engineering steps for the given problem.  TLO 2.3 Construct the Requirement Engineering model for the given problem.  TLO 2.4 Prepare SRS for the given problem.  | Unit - II Software Requirement Engineering 2.1 Software Engineering core principles. 2.2 Software Practices: Communication, Planning, Modelling, Construction, Software deployment (Statement and meaning of each principles for each practice). 2.3 Requirement Engineering: Requirement Gathering and Analysis, Types: Functional, Product, organizational, External Requirements, Eliciting Requirements, Developing Use-cases, Building requirement models, Negotiation, Validation. 2.4 Software Requirement Specification: Need, Format, and its Characteristics.  | Lecture Using<br>Chalk-Board<br>Presentations<br>Case Study    |
| 3     | TLO 3.1 Identify the elements of analysis model for the given software requirements.  TLO 3.2 Apply the specified design concepts for software requirements modeling.  TLO 3.3 Construct software design using standard design notation.  TLO 3.4 State the purpose of software testing.  TLO 3.5 Draw Use-Case ,Class Diagrams, Sequence Diagrams for software project.  TLO 3.6 Explain basic types of software testing. | Unit - III Software Modelling and Design 3.1 Translating Requirement model into design model: Data Modelling. 3.2 Analysis Modelling: Elements of Analysis model. 3.3 Design modelling: Fundamental Design Concepts (Abstraction, Information hiding, Structure, Modularity, Concurrency, Verification, Aesthetics). 3.4 Design notations: Data Flow Diagram (DFD), Structured Flowcharts, Decision Tables. 3.5 UML Modelling: Use-Case, Class Diagrams, Sequence Diagrams. 3.6 Testing – Meaning and purpose, testing methods - Black-box and White-box, Static and Dynamic testing, Level of testing, V-model. | Lecture Using<br>Chalk-Board<br>Presentations<br>Demonstration |

# **SOFTWARE ENGINEERING**

| Sr.No | Theory Learning Outcomes (TLO's)aligned to CO's.  | Learning content mapped with Theory Learning<br>Outcomes (TLO's) and CO's.   | Suggested<br>Learning<br>Pedagogies.  |
|-------|---|--|---|
| 4     | TLO 4.1 Explain the management spectrum for software project. TLO 4.2 Estimate size of software product. TLO 4.3 Estimate cost of software product using the empirical method. TLO 4.4 Compute size of the given software using COCOMO model. TLO 4.5 Apply RMMM strategy in Identified risks for any software development problem. | Unit - IV Software Project Cost Estimation 4.1 The Management Spectrum – 4P's. 4.2 Metrics for Size Estimation: Line of Code (LoC), Function Points (FP). 4.3 Project Cost Estimation Approaches: Overview of Heuristic, Analytical, and Empirical Estimation. 4.4 COCOMO (Constructive Cost Model), COCOMO II. 4.5 Risk Analysis and Management: Risk identification, Risk assessment, Risk management and monitoring, Risk Refinement and Mitigation, RMMM Plan. | Lecture Using<br>Chalk-Board<br>Presentations<br>Case Study<br>Flipped<br>Classroom |
| 5     | TLO 5.1 Apply CPM/PERT scheduling technique for software project. TLO 5.2 Construct timeline chart/ Gantt chart to track progress of the given software project.  | Unit - V Software Project Management 5.1 Project Scheduling: Basic principles, Work breakdown structure, Activity network 5.2 Project Tracking: Timeline charts, Earned Value Analysis, Gantt Charts. 5.3 Scheduling techniques: Critical Path Method(CPM), Program Evaluation Review Technique(PERT)  | Lecture Using<br>Chalk-Board<br>Presentations<br>Demonstration                      |
| 6     | TLO 6.1 Differentiate between Software Quality Management and Software Quality Assurance. TLO 6.2 Apply the phases of Software Quality Assurance in software development project TLO 6.3 Apply software quality evaluation standards.   | Unit - VI Software Quality Assurance 6.1 Software Quality Management vs. Software Quality Assurance. 6.2 Phases of Software Quality Assurance: Planning, activities, audit, and review. 6.3 Quality Evaluation standards: Six Sigma, CMMI: Levels, Process areas.  | Lecture Using<br>Chalk-Board<br>Presentations<br>Case Study                         |

# VI. LABORATORY LEARNING OUTCOME AND ALIGNED PRACTICAL / TUTORIAL EXPERIENCES.

| Practical / Tutorial / Laboratory<br>Learning Outcome (LLO)                            | Sr<br>No | Laboratory Experiment / Practical Titles /<br>Tutorial Titles                                       | Number of hrs. | Relevant<br>COs |
|--|----------|---|----------------|-----------------|
| LLO 1.1 Use software tool to Write problem statement and identify scope of the project | 1        | *Write problem statement to define the project title with bounded scope of the project.             | 2              | CO1             |
| LLO 2.1 Use appropriate process model and activities related to project.               | 2        | Select relevant process model to define activities and related tasks set                            | 2              | CO1             |
| LLO 3.1 Apply the principles of requirement engineering.                               | 3        | *Gather application specific requirements for assimilate into RE (Requirement's engineering) model. | 2              | CO2             |
| LLO 4.1 Create SRS document for the project.   | 4        | *Prepare broad SRS (software requirement software) for the project.                                 | 2              | CO2             |
| LLO 5.1 Construct use case diagram for software models.                                | 5        | *Write use-cases and draw use-case diagram.   | 2              | CO3             |
| LLO 6.1 Design activity diagram for the project.                                       | 6        | Draw the activity diagram to represent flow from one activity to another for software development.  | 2              | CO3             |

#### **SOFTWARE ENGINEERING**

| Practical / Tutorial / Laboratory<br>Learning Outcome (LLO)                                     | Sr<br>No | Laboratory Experiment / Practical Titles /<br>Tutorial Titles  | Number of hrs. | Relevant<br>COs |
|---|----------|--|----------------|-----------------|
| LLO 7.1 Draw data flow diagram for the project. LLO 7.2 Create Decision tables and E-R diagram. | 7        | *Create DFDs (data flow diagram), Decision tables and E-R (entity-relationship) diagram.   | 2              | СОЗ             |
| LLO 8.1 Represent software project by class diagrams.   | 8        | Draw class diagram and Sequence diagram, State Transition Diagram.   | 2              | CO3             |
| LLO 9.1 Prepare decision table for the project  | 9        | * Create decision table for a project.   | 2              | CO3             |
| LLO 10.1 Design test cases by referring SRS document.   | 10       | *Write test cases to validate requirements from SRS document.  | 2              | CO3             |
| LLO 11.1 Write test cases for Blackbox testing.   | 11       | Prepare test cases for Black Box Testing.  | 2              | CO3             |
| LLO 12.1 Identify risk involved in the project LLO 12.2 Prepare RMMM Plan.                      | 12       | * Identify risks involved in the project and prepare RMMM (RMMM-Risk Management, Mitigation and Monitoring) plan.                  | 2              | CO4             |
| LLO 13.1 Estimate size of project using function point matrix                                   | 13       | * Calculate size of the project using Function point metric.   | 2              | CO4             |
| LLO 14.1 Estimate size of project using COCOMO approach.  | 14       | *Calculate cost of the project using COCOMO (Constructive Cost Model) / COCOMO II approach.  | 2              | CO4             |
| LLO 15.1 Prepare project schedule using CPM/PERT technique.                                     | 15       | *Create software project scheduling charts using<br>CPM (Critical Path Method) / PERT (Project<br>Evaluation and Review Technique) | 2              | CO5             |
| LLO 16.1 Monitor the progress of project using timeline/Gantt chart                             | 16       | Track progress of the project using Timeline charts/ Gantt charts.   | 2              | CO5             |
| LLO 17.1 Prepare SQA plan to ensure various quality processes.                                  | 17       | Prepare SQA plan that facilitates various attributes of quality of process.  | 2              | CO6             |
| LLO 18.1 Prepare SQA plan to ensure quality product.  | 18       | *Prepare SQA plan that facilitates various attributes of quality of product.   | 2              | CO6             |

# Note: Out of above suggestive LLOs -

- '\*' Marked Practicals (LLOs) Are mandatory.
- Minimum 80% of above list of lab experiment are to be performed.
- Judicial mix of LLOs are to be performed to achieve desired outcomes.

# VII. SUGGESTED MICRO PROJECT / ASSIGNMENT/ ACTIVITIES FOR SPECIFIC LEARNING / SKILLS DEVELOPMENT (SELF LEARNING)

# Micro project

- Apply the principles of software engineering for Portfolio website for showcasing Skills and Work , Searchability and Online Presence , Demonstrating Growth and Progress , Career Advancement and Networking and Prepare complete technical document.
- Apply the principles of software engineering for Chatbot Application to create an intelligent chatbot to enhance customer support processes, providing efficient and personalized assistance and Develop technical document.
- Apply the principles of software engineering for Online Chat Application Project that enables users to exchange messages and communicate with each other in real-time. It allows individuals or groups to have conversations, share information, and collaborate instantly over the Internet. Online Chat Application is designed to provide a responsive and interactive experience, where messages are delivered and displayed immediately as they are sent and Prepare complete technical document.

# Assignment

• Estimate Cost of software using any tool and risk involved in the library Management System

30-03-2025 12:23:58 AM

Course Code: 315323

#### **SOFTWARE ENGINEERING**

- Create DFDs, Activity Diagram, ER-Diagrams for Student Management System.
- Visit any medical shop and collect requirements from shop keeper and create SRS document

#### Other

• Complete the course basic of software engineering on Infosys Springboard or any MOOCs platforms.

#### Note:

- Above is just a suggestive list of microprojects and assignments; faculty must prepare their own bank of microprojects, assignments, and activities in a similar way.
- The faculty must allocate judicial mix of tasks, considering the weaknesses and / strengths of the student in acquiring the desired skills.
- If a microproject is assigned, it is expected to be completed as a group activity.
- SLA marks shall be awarded as per the continuous assessment record.
- For courses with no SLA component the list of suggestive microprojects / assignments/ activities are optional, faculty may encourage students to perform these tasks for enhanced learning experiences.
- If the course does not have associated SLA component, above suggestive listings is applicable to Tutorials and maybe considered for FA-PR evaluations.

# VIII. LABORATORY EQUIPMENT / INSTRUMENTS / TOOLS / SOFTWARE REQUIRED

| Sr.No | Equipment Name with Broad Specifications                              | Relevant LLO Number |
|-------|---|---------------------|
| 1     | Software Project Management Tools: Open source Software such as Jira. | 1,2,3,4,10,11,17,18 |
| 2     | Software Design tools : Projectriskmanager                            | 12                  |
| 3     | Software Design tools :Open Project, Ganttproject 3.3                 | 15,16               |
| 4     | Software Design tools: Free Use Case Diagram Creator                  | 5                   |
| 5     | Software Design tools: Draw.io, Decision Table Maker, Tiny tools      | 6,7,8,9,13,14       |
| 6     | Hardware: Personal computer, processor i3 and above, RAM minimum 4 GB | All                 |
| 7     | Operating system: Windows 10 and above                                | All                 |

# IX. SUGGESTED WEIGHTAGE TO LEARNING EFFORTS & ASSESSMENT PURPOSE (Specification Table)

| Sr.No | Unit | Unit Title                       | Aligned<br>COs | Learning<br>Hours | R-<br>Level | U-<br>Level | A-<br>Level | Total<br>Marks |
|-------|------|----------------------------------|----------------|-------------------|-------------|-------------|-------------|----------------|
| 1     | I    | Software Development Process     | CO1            | 7                 | 2           | 6           | 4           | 12             |
| 2     | II   | Software Requirement Engineering | CO2            | 9                 | 4           | 6           | 4           | 14             |
| 3     | III  | Software Modelling and Design    | CO3            | 9                 | 4           | 4           | 8           | 16             |
| 4     | IV   | Software Project Cost Estimation | CO4            | 8                 | 2           | 2           | 8           | 12             |
| 5     | V    | Software Project Management      | CO5            | 4                 | 2           | 2           | 4           | 8              |
| 6     | VI   | Software Quality Assurance       | CO6            | 3                 | 2           | 2           | 4           | 8              |
|       | •    | Grand Total                      |                | 40                | 16          | 22          | 32          | 70             |

#### X. ASSESSMENT METHODOLOGIES/TOOLS

# Formative assessment (Assessment for Learning)

- Each practical will be assessed considering 60% weightage to process, 40% weightage to product.
- Continuous assessment based on process and product related performance indicators.
- A Continuous assessment -based term work.

# **Summative Assessment (Assessment of Learning)**

End Semester Examination, Lab Performance, Viva voce

# SOFTWARE ENGINEERING

# XI. SUGGESTED COS - POS MATRIX FORM

# CLOUD COMPUTING

: Computer Technology/ Computer Engineering/ Computer Science & Engineering/

Programme Name/s Computer Hardware & Maintenance/

Computer Science & Information Technology/ Computer Science

Programme Code : CM/ CO/ CW/ HA/ IH/ SE

Semester : Fifth

Course Title : CLOUD COMPUTING

Course Code : 315325

#### I. RATIONALE

Cloud computing has evolved as a very important computing model. It enables information, software, and other shared resources to be provisioned over the network as services in an on-demand manner. There are many aspects of cloud computing viz cloud types, storage in cloud, security in cloud, cloud monitoring and management. This course provides implementing virtualization, creation of cloud based storage, implementing security, and managing cloud services.

#### II. INDUSTRY / EMPLOYER EXPECTED OUTCOME

The aim of this course is to attain following Industry Identified Competency through various Teaching Learning Experiences: Manage Cloud based services.

# III. COURSE LEVEL LEARNING OUTCOMES (COS)

Students will be able to achieve & demonstrate the following COs on completion of course based learning

- CO1 Use basic Cloud based applications.
- CO2 Explain Virtualization in Cloud Computing.
- CO3 Maintain storage system and services in Cloud.
- CO4 Apply Security in Cloud Computing.
- CO5 Use various Cloud Platforms.

#### IV. TEACHING-LEARNING & ASSESSMENT SCHEME

#### **CLOUD COMPUTING**

#### **Total IKS Hrs for Sem.**: 0 Hrs

Abbreviations: CL- ClassRoom Learning, TL- Tutorial Learning, LL-Laboratory Learning, SLH-Self Learning Hours, NLH-Notional Learning Hours, FA - Formative Assessment, SA -Summative assessment, IKS - Indian Knowledge System, SLA - Self Learning Assessment

Legends: @ Internal Assessment, # External Assessment, \*# On Line Examination , @\$ Internal Online Examination

#### Note:

- 1. FA-TH represents average of two class tests of 30 marks each conducted during the semester.
- 2. If candidate is not securing minimum passing marks in FA-PR of any course then the candidate shall be declared as "Detained" in that semester.
- 3. If candidate is not securing minimum passing marks in SLA of any course then the candidate shall be declared as fail and will have to repeat and resubmit SLA work.
- 4. Notional Learning hours for the semester are (CL+LL+TL+SL)hrs.\* 10 Weeks
- 5. 1 credit is equivalent to 30 Notional hrs.
- 6. \* Self learning hours shall not be reflected in the Time Table.
- 7. \* Self learning includes micro project / assignment / other activities.

#### V. THEORY LEARNING OUTCOMES AND ALIGNED COURSE CONTENT

| Sr.No | Theory Learning Outcomes (TLO's)aligned to CO's.   | Learning content mapped with Theory Learning Outcomes (TLO's) and CO's.   | Suggested<br>Learning<br>Pedagogies.   |

| LLO 8.1 Implement Identity Management and Access Management using Cloud computing infrastructure. | 8        | * Implement Identity Management and<br>Access Management using OpenStack                          | 2              | CO4             |
| LLO 9.1 Configure server for security.  | 9        | Configure Server using CFEngine or any other open source tool                                     | 2              | CO4             |
| LLO 10.1 Design IoT based application.  | 10       | * Design an application based on IoT using Arduino or Raspberry Pi                                | 2              | CO5             |
| LLO 11.1 Design Cloud based application.  | 11       | Design any automated application using RFID   | 2              | CO5             |

# Note: Out of above suggestive LLOs -

- '\*' Marked Practicals (LLOs) Are mandatory.
- Minimum 80% of above list of lab experiment are to be performed.
- Judicial mix of LLOs are to be performed to achieve desired outcomes.

# VII. SUGGESTED MICRO PROJECT / ASSIGNMENT/ ACTIVITIES FOR SPECIFIC LEARNING /

Course Code: 315325

# **CLOUD COMPUTING**

# SKILLS DEVELOPMENT (SELF LEARNING)

### Micro project

- A suggestive list of micro-projects is given here. Similar micro-projects could be added by concerned faculty:
- a) Prepare the report on case study of Amazon Cloud Services.
- b) Prepare the report on case study of Google App Engine.
- c) Create infrastructure as service using OpenStack.
- d) Develop Personal Cloud using Raspberry Pi or any equivalent platform.

#### Note:

- Above is just a suggestive list of microprojects and assignments; faculty must prepare their own bank of microprojects, assignments, and activities in a similar way.
- The faculty must allocate judicial mix of tasks, considering the weaknesses and / strengths of the student in acquiring the desired skills.
- If a microproject is assigned, it is expected to be completed as a group activity.
- SLA marks shall be awarded as per the continuous assessment record.
- For courses with no SLA component the list of suggestive microprojects / assignments/ activities are optional, faculty may encourage students to perform these tasks for enhanced learning experiences.
- If the course does not have associated SLA component, above suggestive listings is applicable to Tutorials and maybe considered for FA-PR evaluations.

# VIII. LABORATORY EQUIPMENT / INSTRUMENTS / TOOLS / SOFTWARE REQUIRED

| Sr.N | o Equipment Name with Broad Specifications  | Relevant LLO<br>Number |
|------|---|------------------------|
| 1    | Computer system - Hardware: Min 8GB RAM, 512 GB HDD, Gigabit Ethernet network equipment, Software Requirement: Apache Tomcat, Java, Python, Virtualization Software, Academic version of any public cloud service(Google/AWS) | All                    |

# IX. SUGGESTED WEIGHTAGE TO LEARNING EFFORTS & ASSESSMENT PURPOSE (Specification Table)

| 4     | IV   | Security in Cloud Computing                 | CO4            | 8                 | 2           | 6           | 6           | 14             |
| 5     | V    | Trends in Cloud                             | CO5            | 8                 | 0           | 6           | 8           | 14             |
|       |      | Grand Total                                 |                | 40                | 14          | 26          | 30          | 70             |

#### X. ASSESSMENT METHODOLOGIES/TOOLS

#### Formative assessment (Assessment for Learning)

• Each practical will be assessed considering 60% weightage to process, 40% weightage to product. For formative assessment of laboratory learning 25 marks.

# CLOUD COMPUTING Course Code: 315325

# **Summative Assessment (Assessment of Learning)**

• Two offline unit tests of 30 marks and average of two unit test marks will be considered for out of 30 marks. End semester assessment is of 70 marks.

End semester summative assessment of 25 marks for laboratory learning.

Semester : Fifth

Course Title : INTERNSHIP(12 WEEKS)

Course Code : 315004

#### I. RATIONALE

Globalization has prompted organizations to encourage skilled and innovative workforce. Internships are educational and career development opportunities, providing practical/ hands-on experience in a field or discipline. Summer internship is an opportunity for students to get accustomed to modern industry practices, apply the knowledge and skills they've acquired in the classroom to real-world situations and become familiar with industry environments before they enter the professional world. Keeping this in mind, industrial training is incorporated to all diploma programmes as it enables the student to get equipped with practical skills, soft skills and life skills

# II. INDUSTRY / EMPLOYER EXPECTED OUTCOME

The aim of this course is to help the student to attain the following industry identified competency through various teaching learning experiences: Apply skills and practices to industrial processes.

# III. COURSE LEVEL LEARNING OUTCOMES (COS)

Students will be able to achieve & demonstrate the following COs on completion of course based learning

- CO1 Observe time/resource management and industrial safety aspects.
- CO2 Acquire professional experience of industry environment.
- CO3 Establish effective communication in working environment.
- CO4 Prepare report of assigned activities and accomplishments.

# IV. TEACHING-LEARNING & ASSESSMENT SCHEME

Course Code: 315004

Legends: # External Assessment

Note: Credits for Industrial Training are in-line of guidelines of NCrF: The industrial training is of 12 weeks considering 36-40 hours per week engagement of students (as per Guidlines of GR of Maharashtra Govt.) under Self Learning with guidance of industry supervisor / Mentor

# V General guidelines for organizing Industrial training

The Industry/organization selected for Industrial training/ internships shall be Government/Public Limited/ Private limited / Startup /Centre of Excellence/Skill Centers/Skill Parks etc.

- 1. Duration of Training 12 weeks students engagement time
- 2. Period of Time slot Between 4th and 5th semester (12 weeks) i.e. commencement of internships will be immediately following the 4th semester exams.
- 3. Industry area Engineering Programme Allied industries of large, medium or small-scale, Organization/Govt./ Semi Govt Sectors.

#### VI Role(s) of Department at the Institute:

Following activities are expected to be performed by the concerned department at the Polytechnics.

# Table of activities to be completed for Internship

| S.No | Activity  | Suggested Schedule WEEKS   |
|------|---|--|
|      | Collection of information about industry available and ready for extending training with its offered capacity of students (Sample Format 1) | 1 <sup>st</sup> to 3 <sup>rd</sup> week of 4 <sup>th</sup><br>Semester |
| 2    | Allocations of Student and Mentor as per availability (Mentor: Student Ratio (1:15)   | 4 <sup>th</sup> to 6 <sup>th</sup> week of 4 <sup>th</sup> semester    |
| 3    | Communication with Industry and obtaining its confirmation  Sample letter Format  | 6 <sup>th</sup> to 8 <sup>th</sup> week of 4 <sup>th</sup> semester    |
| 4    | Securing consent letter from parents/guardians of students (Sample Format 2)  | Before 10 <sup>th</sup> week of 4 <sup>th</sup> semester               |
|      | Enrollment of Students for industrial training (Format 3)   | Before 12 <sup>th</sup> week of 4 <sup>rd</sup> semester               |
| 6    | Issue of letter to industry for training along with details of students and mentor (Format 4)   | Before 14 <sup>th</sup> week of 4 <sup>th</sup> Semester               |

Course Code: 315004

| 7 | Organize Internship Orientation session for students               | Before end of 4 <sup>th</sup><br>Semester |
|---|--|---|
| 8 | Progressive Assessment of industry training by Mentor              | Each week during training period          |
| 9 | Assessment of training by institutional mentor and Industry mentor | 5 <sup>th</sup> Semester ESE              |

### Suggestions-

- 1. Department can take help of alumina or parents of students having contact in different industries for securing placement.
- 2. Students would normally be placed as per their choices, in case of more demand for a particular industry, students would be allocated considering their potentials. However preference for placement would be given to students who have arranged placement in company with the help of their parents or relatives.
- 3. Principal/HOD/Faculty should address students about industrial safety norms, rules and discipline to be maintained in the industry during training before relieving students for training.
- 4. The faculty members during the visit to industry or sometimes through online mode will check the progress of the student in the training, student attendance, discipline, and project report preparation each week.

## VII Roles and Responsibilities of students:

- 1. Students may interact with the mentor to suggest choices for suitable industry, if any. If students have any contact in industry through their parents or relatives then the same may be utilized for securing placement for themselves and their peers.
- 2. Students have to fill the forms/formats duly signed by institutional authorities along with a training letter and submit it to a training officer/mentor in the industry on the first day of training.
- 3. Students must carry with him/her Identity card issued by the institute during the training period.
- 4. Students should follow industrial dressing protocols, if any. In absence of specific protocol students must wear college uniform compulsorily.
- 5. Students will have to get all necessary information from the training officer/mentor at industry regarding schedule of training, rules and regulation of the industry and safety norms to be followed. Students are expected to observe these rules, regulations and procedures.
- 6. Students must be fully aware that if they disobey any rule of industry or do not follow the discipline then non-disciplinary action will be taken .
- 7. Students must maintain a weekly diary (Format 6) by noting daily activities undertaken and get it duly signed from industry mentor or Industrial training in charge.
- 8. In case students face any major problems in industry such as an accident or any disciplinary issue then they should immediately report the same to the mentor at the institute.

- 9. Prepare a final report about the training for submitting to the department at the time of presentation and vivavoce and get it signed from a mentor as well as industry training in charge.
- 10. Students must submit the undertaking as provided in Format 5.

### VIII Typographical guidelines for Industry Training report

Following is the suggestive format for preparing the training report. Actual report may differ slightly depending upon the nature of industry. The training report may contain the following

- 1. The training report shall be computer typed (English- British) and printed on A4 size paper.
- 2. Text Font -Times New Roman (TNR), Size-12 point
- 3. Subsection heading TNR- 12 point bold normal
- 4. Section heading TNR-12 capital bold
- 5. Chapter Name / Topic Name TNR- 14 Capital
- 6. All text should be justified. (Settings in the Paragraph)
- 7. The report must be typed on one side only with double space with a margin 3.5 cm on the left, 2.5 cm on the top, and 1.25 cm on the right and at bottom.
- 8. The training report must be hardbound/ Spiralbound with a cover page in black color. The name of the candidate, diploma (department), year of submission, name of the institute shall be printed on the cover.
- 9. The training report, the title page should be given first then the Certificate followed by the acknowledgment and then contents with page numbers.

#### IX Suggestive format of industrial training report

Following format may be used for training report. Actual format may differ slightly depending upon the nature of Industry/ Organization.

- Title Page
- Certificate
- Abstract
- Acknowledgement
- Content Page

| Chapter 1 | Organization structure of Industry and general layout.   |
|-----------|--|
| Chapter 2 | Introduction to Industry / Organization (history, type of products and services, turn over and number of employees etc.)   |
| Chapter 3 | Types of Major Equipments/raw materials/ instruments/machines/ hardware/software used in industry with their specifications, approximate cost, specific use and routine maintenance done |
| Chapter 4 | Processes/ Manufacturing Manufacturing techniques and methodologies and material handling procedures   |
| Chapter 5 | Testing of Hardware/Software/ Raw materials/ Major material handling product (lifts, cranes, slings, pulleys, jacks, conveyor belts etc.) and material handling procedures.              |
| Chapter 6 | Safety procedures followed and safety gears used by industry.  |

| Chapter 7  | Particulars of Practical Experiences in Industry/Organization if any in Production/Assembly/Testing/Maintenance             |  |  |  |  |  |
|------------|---|--|--|--|--|--|
| Chapter 8  | Detailed report of the tasks undertaken (during the training).  |  |  |  |  |  |
| Chapter 9  | Special/challenging experiences encountered during training if any (may include students liking & disliking of workplaces). |  |  |  |  |  |
| Chapter 10 | Conclusion  |  |  |  |  |  |
| Chapter 11 | References / sources of information   |  |  |  |  |  |

## X Suggested learning strategies during training at Industry

- Students should visit the website of the industry where they are undergoing training to collect information about products, processes, capacity, number of employees, turnover etc.
- They should also refer to the handbook of the major machines and operations, testing, quality control and testing manuals.
- Students may also visit websites related to other industries wherein similar products are being manufactured.

### XI Tentative week wise schedule of Industry Training

Industrial training is a common course to all Diploma programmes, therefore the industry selection will depend upon the nature of the programme and its related industry. The training activity may vary according to nature and size of industry.

The following table details of activities to be completed during industrial training.

| Details of Activities to be | completed during Industry training   |
|-----------------------------|--|
| Introduction of Industry an | d departments.   |
| Study of Layout of Industr  | y, Specifications of Machines, raw materials, components available in the industry |
| Study of setup and manufa   | cturing processes  |
| Execute given project or w  | ork assigned to the students, study of safety and maintenance procedures           |
| Validation from industry m  | entor regarding project or work allocated  |
| Report writing              |  |

### XII CO-PO Mapping Table to be created by respective Department/faculty.

### XIII. Formative Assessment of training: Suggested RUBRIC

(Note: Allot the marks in proportion of presentations and outcome observed. Marks excluding component of week 11 are to be filled by Institute mentor)

| Week | Task to be assessed | Outcome<br>Achievement -<br>Poor | Outcome<br>Achievement -<br>Moderate | Outcome Ac | hievement - High | Week-<br>wise  |
|------|---------------------|----------------------------------|--------------------------------------|------------|------------------|----------------|
| No   | Task to be assessed | Poor                             | Average                              | Good       | Excellent        | total<br>Marks |
| 1    | / 1 L-/             | Marks                            | Marks                                | Marks      | Marks            | IVIAI KS       |

|    | (12 WEEKS)  | <u>′</u>   |   |  | Course Code : 51  |   |
|----|---|--|---|--|---|---|
| 1  | Introduction of<br>Industry   | Knowledge of Departments, processes, products and work culture   | Moderate Knowledge of Departments, processes, products and work culture of the company  (Marks –2)  | Good Knowledge of Departments, processes, products and work culture of the company  (Marks -3/4)   | Extensive Knowledge of Departments, processes, products and work culture of the company  (Marks -5)   |   |
| 2  | Presentation of Layout of Industry, Specifications of Machines, raw materials, components available in the industry | Minimal w.r.t.<br>tasks  | Moderate w.r.t.<br>tasks<br>(Marks –2)  | Good w.r.t. tasks (Marks –3/4)   | Extensive w.r.t.<br>tasks<br>(Marks –5)   |   |
|    | Participation in setup<br>and manufacturing<br>processes/platforms  | Minimal Participation with poor understanding (Marks –1-8)   |   | Good Participation with poor understanding (Marks –13-17)  | Extensive Participation with poor understanding (Marks –18-20)  |   |
|    | Execution of given project or work to the students, Follow of safety and maintenance procedures                     | Minimal  Participation with  | Moderate Participation with lower level understanding (Marks – 9-12)  | Good Participation with Good understanding (Marks – 13-17)   | Extensive Participation with excellent understanding (Marks – 18-20)  |   |
| 11 | Validation by industry<br>mentor regarding<br>project or work<br>allocated  | Participation with   | Moderate Participation with acceptable performance (Marks – 11-15)  | Good Participation with Good performance (Marks – 16-20)   | Extensive Participation with excellent performance  (Marks – 21-25)   | \ |
| 12 | Diary writing   | <ul> <li>Results are not Presented properly,</li> <li>Project work is summarized and concluded not acceptable</li> <li>Future extensions are not specified</li> <li>(Marks -1-10)</li> </ul> | <ul> <li>Results are         Presented         just casually</li> <li>Project work         is         summarized         and         concluded         casually</li> <li>Future         extensions are</li> </ul> | Results are Presented well and properly,     Project work is summarized and concluded to a Good level     Future extensions are well specified  (Marks –16-20) | Results are     Presented     exhaustively     Project work     is summarized     and elaborated     in excellent     manner,     concluded     Future     extensions are     excellently     specified |   |

## Total Out of:100

Marks for (FA) are to be awarded for each week considering the level of completeness of activity observed as per table specified in Sr.No. XIII above, from the daily diary maintained . Feedback from industry supervisor shall also be considered.

## XIV Summative Assessment (SA) of training:

Academic year: 20 -20

Abbreviations: CL- Classroom Learning, TL- Tutorial Learning, LL-Laboratory Learning, FA - Formative Assessment, SA - Summative Assessment, IKS - Indian Knowledge System, SLA - Self Learning Assessment Legends: @ Internal Assessment, # External Assessment, \*# On Line Examination, @\$ Internal Online Examination

ote:

- 1. FA-TH represents average of two class tests of 30 marks each conducted during the semester.
- 2. If candidate is not securing minimum passing marks in FA-PR of any course then the candidate shall be declared as "Detained" in that semester.
- 3. If candidate is not securing minimum passing marks in SLA of any course then the candidate shall be declared as fail and will have to repeat and resubmit SLA work.
  - 4. Notional Learning hours for the semester are (CL+LL+TL+SL)hrs.\* 10 Weeks
    - 5. 1 credit is equivalent to 30 Notional hrs.
- 6. \* Self learning hours shall not be reflected in the Time Table.
- 7. \* Self learning includes micro project / assignment / other activities.

Note: Notional learning hours for internship represents the student engagement hours.

Course Category: Discipline Specific Course Core (DSC), Discipline Specific Elective (DSE), Value Education Course (VEC), Intern./Apprenti./Project./Community (INP), AbilityEnhancement Course (AEC), Skill Enhancement Course (SEC), Generic Elective (GE)
